

PEGASO

Linear LED bar designed for intense and smooth lighting.

More than 1000lm flux generated by 126 SMD LEDs mounted on aluminium PCB modules.

Aluminium profile assembly for efficient thermal management.

Silicone glue waterproof sealing and IP65 connector for series wiring (maximum 2 units); single cable or double cable model available.

Supply requirement:	24Vdc / 550mA
Power consumption:	13W
CCT:	2900K
Light output:	1000lm
IP grade:	IP65
Dimensions:	400mm x 22.4mm x 10.9mm
